

Maui Coast

Marie & Gene

Maui Coast

This is another version of the same album. Photos from the northern shore of West Maui during the Triple-Three Anniversary vacation trip of Marie & Gene to Maui in October of 2001.

Oooh....some nifty rock formations and a "blowhole"!!!

The volcanic rocks made for very interesting scenery.

The rocky coast....pretty cool.

After the neat shores
were seen, we rounded
the souther side of West
Maui in time to see the
setting sun...

...and not too late for a fun luau!
